Clinical Internship Program in

CORRECTIONAL HEALTH

The Leadership Scholars Certificate Program is a two-year selective, interdisciplinary certificate program that prepares Rutgers undergraduate women to be informed, innovative, and socially responsible leaders.

Leadership Scholars design and implement social action projects to expand their understanding of issues and problems and to develop leadership skills.

This project gives Scholars the opportunity to apply the theoretical knowledge they have gained about leadership, advocacy, and social change with the practical and experiential knowledge they have developed about a particular policy issue or problem through the field site placement. It also further develops leadership skills by giving undergraduates the opportunity to *practice* leadership *through* action.

To find out more please visit the Institute for Women's Leadership's website at <http://iwl.rutgers.edu>.

Establish a summer clinical internship program in correctional health for pre-health undergraduate students at Rutgers University-New Brunswick
